- Not Crated At All

### **How does the hound handle being crated?**

I was not sure if she was crated at her previous home so I tried crating her the first week. It became a struggle to get her in the crate after that so I have been leaving her out with her muzzle on during the day while I am gone. She has been doing fine outside of the crate. I think going to a home that is okay not crating would be best.

### **What does the hound enjoy?**

She enjoys walks, car rides and lots of attention.

### **Does the hound have any fears?**

Not that I am aware of. She was a little concerned about the vacuum but she did not run and hide from it.

### **What type of temperament does the hound have? (Shy, outgoing, confident, etc.)**

She is a little hesitant in new situations but once she realizes she will get lots of pets she is fine and becomes outgoing.
