When is the hound crated?

- 8 Hour Work Day

How does the hound handle being crated?

She is crated for meals, and when there is no one in the house. It is not always 8 hours. When crated she will whine a little if she knows people are home, but is mostly very quite and relaxed.

What does the hound enjoy?

She loves playing with the other hounds in the home. She will also play with toys alone, but she likes to annoy the others. She also loves attention from humans, and it is very easy to get her going. She tends to follow her humans when they leave the room because she is curious, but is also okay being alone. She enjoys going on walks and exploring the house and the neighborhood.

Does the hound have any fears?

Sparrow is pretty fearless for the most part, but she dislikes the vacuum.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

We would describe Sparrow as an outgoing and lovey hound. She definitely knows what she wants and likes to have a good time. It's never a boring day with her around.

How does the hound handle new situations?

She does well in new situations. She can easily make herself comfortable.

What type of food are you currently using?

Diamond naturals lamb and rice large breed.
