**Comments (Small Dog)**

She hasn't really spent much time around small dogs, but she ignores the cats and is very laid back so I don't think she would have any issues with smaller dogs.

**Cat Safe**

Yes

### Comments (Cat Safe)

She barely acknowledges the cats at all.

### Good With Young Children

Not Sure

### Comments (Young Children)

she hasn't been around many little people, but is interested in them. I think she would be okay with calmer children that aren't too scary. I think she would love their attention especially if the other dog loves them.

### Turn Out Routine

## When is the hound crated?

- 8 Hour Work Day

## How does the hound handle being crated?

Perfectly fine. She has no problems in the crate and would probably appreciate a quiet place especially when she is first adopted.

## What does the hound enjoy?

She loves to go for walks. She is very affectionate and enjoys getting pets and snuggles.

## Does the hound have any fears?

She is very timid around strangers and will take some time to get to know new people. The only other thing she is afraid of is the sound of a soda bottle opening.

## What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

She is definitely an introvert around strangers. Around her family she will be silly, playful, and affectionate.

## How does the hound handle new situations?

She doesn't mind new situations especially if she has another dog for support. Situations don't bother her unless you expect her to be sociable with new humans.
