When is the hound crated?

- Bed Time

How does the hound handle being crated?

Crated every night and when we leave the house. She also eats in her crate and will run right to it when she knows it's time to eat.

What does the hound enjoy?

She loves playing with our 2 greyhounds outside and loves to get all the toys out of the toy bin.
Anything that makes noise she's on top of it.

Does the hound have any fears?

It took a few days for her to let us touch her head but now she's all about getting her ears scratched and head rubbed.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

She's a little shy and very curious but after a bit she's just a happy loving puppy.

How does the hound handle new situations?

At first she might be a little fearful but as long as she's at your side she calms down with some petting.
