When is the hound crated?

- Both

How does the hound handle being crated?

I typically work 9 hour days. Initially he would bust out of his crate while chewing and pulling at the bars. He is now kenneled next to my other greyhound and he does fine. However we have continued to muzzle while in crate. He has been really good so we are now going to start trying without the muzzle in small doses.

What does the hound enjoy?
