## Counters

counter curious - again, pesky food

## When is the hound crated?

- 8 Hour Work Day

## How does the hound handle being crated?

Not particularly well. He is slowly getting better, but loves howling to bring the pack back together, even if you are in the same room with him while he is crated. Lots of crying when I leave for work, or if he is crated when I am in another room for some reason. Unfortunately, gets into too many things to be left uncrated during these times.

## What does the hound enjoy?

FOOD. Anything and everything food related. Like I told Heather, he looked like an overstuffed sausage casing coming out of prison. I don't think the diet is helping with this food obsession situation either. He also likes toys, but is far more motivated by attention and hugs or lap time with his people than toys. Hugs rival food, I would say. He also loves singing with sirens when he can hear them in the area.

## Does the hound have any fears?

Cars back-firing (but not thunder...? so funny), being without his people.

## What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Very outgoing, rambunctious

## How does the hound handle new situations?

Sticks to his people, but isnt too timid. Takes his cues from the people and other greys around him.
