When is the hound crated?

- Bed Time

How does the hound handle being crated?

Sleeping is fine, but she might fuss if you're up and about, because she just wants to be near you.

What does the hound enjoy?

RUNNING. PRAISE. Fluffy things. Little dogs. Her foster brother. Cuddles. Ear scratches. Cheese.
Sausage. Chicken skins.

Does the hound have any fears?

Dislikes loud noises. Apprehensive around VERY large, over-friendly dogs. Shy about doorways for some reason?

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

She's shy and naive, but don't mistake that for being a push-over. Mostly just very eager to please the ones she loves and trusts, so with encouragement and a kind word, she'll do what is requested of her.

How does the hound handle new situations?

She's always a bit cautious, but if she sees another dog doing things and enjoying themselves, she'll want to join in.
