**Comments (Young Children)**

She seems fine with small children when they come to the meet and greets but no small kids here at home anymore.

**Turn Out Routine**

My youngest is home during the days I work and I only work part time so she does get frequent potty breaks. We let out before breakfast, a couple hours after, early afternoon and again before dinner around 5. And also a few times in the evening to burn off some energy

**When is the hound crated?**

- Bed Time

**How does the hound handle being crated?**

Shanis knows that she eats in her crate and sleeps in there so she's done great going in there when it's bedtime or food time.

**What does the hound enjoy?**

She loves toys and running around our backyard with my two boys. She'll take whatever attention and love she can get but also loves her naps.

**Does the hound have any fears?**

Shanis isn't a fan of our floors, we did have to put a towel down for here to walk on for a bit but other than that, nothing seems to bother her.

**What type of temperament does the hound have? (Shy, outgoing, confident, etc.)**

She can definitely be shy at first but she'll let you know when she gets excited but her happy tail wagging everywhere.

**How does the hound handle new situations?**

She's shy and very reserved at first but then will open right up as long as she knows you're by her side.

TSC 4 Health Salmon and sweet potatoe
