Turn Out Routine

First thing in AM ~7am, again ~8am before leaving for work. If not working from home, not let out again until ~5pm and then let out approx. every 2 hours. If working from home, let out approx. every 2 hours.

Both doors fenced in, so muzzles on and then open door. We will be working on her rushing the door. She comes when called when outside but not inside.

When is the hound crated?

- 8 Hour Work Day

How does the hound handle being crated?

Excellent. So far no whining or barking, no destroying bedding, etc.

What does the hound enjoy?

Nesting in blankets (she roaches constantly) and seems to enjoy toys.

Does the hound have any fears?

Not necessarily a fear but she seems to get worked up easily over noises. Neighbor dogs barking or garbage truck sometimes gets her pacing. Interestingly, when outside she exhibits hints of being a car chaser (runs along fence when vehicles pass by).

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Shy/slow to warm up.

How does the hound handle new situations?

Shy/timid but not anxious. Tends to act stoic.
