When is the hound crated?

- Both During The Work Day and At Bed Time

How does the hound handle being crated?

Patron does whine in the crate but calms down after a few minutes. For bedtime I have no issues.

What does the hound enjoy?

Patron loves a treat and enjoys playing with humans more than toys. When he wants to play, he will do a play bow and front feet shuffle until you chase him around. When he's bored I will give him a bone and he really loves those as well.

Does the hound have any fears?

Doesn't love getting in the care but I am working on it.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Very Confident!

How does the hound handle new situations?

Patron is very confident in new situations and learns quickly. I have had no issues with him not wanting to do anything.

What type of food are you currently using?

Purina Pro Plan Beef and rice
