Small Dog Safe

Not Sure

Comments (Small Dog)

I have not observed Thunder interacting with small dogs.

Cat Safe

Yes

Comments (Cat Safe)

Thunder mostly ignores my cat. He did need to learn that the cat was a family member and not for chasing, but since then he's been really good about leaving the cat alone.

Good With Young Children

Not Sure

Comments (Young Children)

I have not observed Thunder interacting with young children. He is pretty tolerant, so I don't think he would have issues with well-behaved children who respect his space.

He will explore garbage in a container without a lid

fine with all floors

Counters

Will sniff at food out on counters. I do not recommend leaving food out unattended.

When is the hound crated?

- Both During The Work Day and At Bed Time

How does the hound handle being crated?

After a bit of a learning curve, Thunder does well with the crate. During the day, I have been keeping him muzzled in the crate to keep him from nibbling on the bars, and he usually just sleeps. He might not need the muzzle in the crate after he settles into a routine. I keep a radio on in the room where he is crated to keep him company. At night he sleeps well in the crate and is not muzzled.

What does the hound enjoy?

Toys, blankets, walks, attention from his people, treats (but is not super food motivated)

Does the hound have any fears?

I haven't encountered anything yet.

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Confident and affectionate

How does the hound handle new situations?

Very well. Thunder is very adaptable and looks to his people or other dogs for cues on how to behave.

What type of food are you currently using?

Victor Multipro

1 3/4 cups (would recommend 2, but he doesn't finish that amount)
