She will countersurf if food is left out or to investigate the dog treat jar

When is the hound crated?

- Both During The Work Day and At Bed Time

How does the hound handle being crated?

Sheba crates well. During the work day, she is used to being crated up to 4 hours at a time. Overnight, she is crated for 8 hours. She will whine a little when she wants out.

What does the hound enjoy?

Toys, playing with other dogs, chasing bunnies and squirrels, treats, gentle affection

Does the hound have any fears?

Sheba is shy and nervous in new situations and with new people, but I haven't seen her demonstrate a strong fear response to anything yet

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

Shy at first, but when she decompresses and feels safe she is a happy, confident, curious, affectionate little pup.

How does the hound handle new situations?

She is nervous and easily spooked in new situations and will benefit from some calm time and space to settle.
