When is the hound crated?

- 8 Hour Work Day

How does the hound handle being crated?

She is ok, She does cry for the first 15 minutes but will settle down.

What does the hound enjoy?

She loves toys. She is also very food motivated.

Does the hound have any fears?

Yeah, she was terrified at the home show. On walks if we venture outside of the neighborhood she is scared of everything. Women, Men, Stollers, cars, bikes. She did let a little girl pet her after seeing her pet Cable so that was goood!

What type of temperament does the hound have? (Shy, outgoing, confident, etc.)

She is shy meeting new people at first. Total velco hound and loves her people. SUPER snuggly.

How does the hound handle new situations?

In the home she tackles scary things with confidence but outside the house her tail is tucked, and she tries to bolt even on the leash.

What type of food are you currently using?

Purina Pro Plan Beef and Rick
